

HARVESTING REPORT

August 2021

GLENLEA FOREST

Snow in Glenlea Forest.

FMNZ

"Maximising the value of forests since 1974"

Clearfell Harvesting Report – Glenlea – August 2021

Summary

- Gross revenue for the month is **\$145,533.74**
- Costs for the month are **\$112,696.28**
- Net income for the month is **\$32,837.46**
- Tonnes harvested for the month is **1,087.70**
- Net income per tonne for the month is **\$30.19**
- Area cleared for the month is **1.9** hectares

The project performance to date is set out below:

- Project gross revenue to date is **\$8,329,552.35**
- Project costs to date are **\$6,441,511.40**
- Project net income to date is **\$1,888,040.95**
- Tonnes harvested to date is **63,915.03**
- Net income per tonne to date is **\$29.54**
- Recoverable volume per hectare to date is **730.5** tonnes
- Net income per hectare to date is **\$21,577.61**
- Total forest area is **293.8** hectares, approximate hectares cleared to date is **87.5** hectares.

The total forest area reflects all net stocked areas regardless of age class or previous roadline volumes.

NB: Measured harvest areas are estimated monthly and reconciled with satellite imagery prior to valuations, they are subject to change and should be used as a guide only.

Revenue

Log Sales

Gross income for the month was **\$145,533.74** with an average sale price over all grades of **\$133.80** per tonne.

August 2021 - Log Markets, Hawkes Bay

The August export prices have dropped \$33.21/Jas m³ on average. The decrease has affected the sawlog grades to a greater extent.

Radiata log inventories on the main Chinese ports we monitor have increased marginally to 4.53Mm³, with daily offtake 70Km³ per day range but with significant volume awaiting discharge from ships waiting at port.

If Covid related lockdowns do not escalate further, Chinese demand should remain solid over the balance of 2021, slowly increasing as traditionally production lifts in Quarter 4.

This month exporters have been reluctant to set AWG prices as there was a stand off from customers opening LC's (Letters of Credit) for vessels on route, but these were a lot more forthcoming once the New Zealand lockdown was announced.

The two weeks at the end of August where harvesting ceased has helped clear most port stocks in New Zealand. Log storage, berth availability, stevedoring performance and general infrastructure issues are limiting to varying degrees further production. The average number of vessels departing New Zealand each month has been 55 this year and there are currently less than 35 planned for September. This will hopefully assist with port congestion in China with vessels now waiting up to three weeks.

Port congestion in both New Zealand and in China continues to run at record levels, with the result that not only are final freight costs increased significantly but the capacity of the fleet is being reduced. At the China end we are seeing an increase in delays due to Covid restrictions at a number of Chinese ports, particularly in the Yangtze basin. August final freight costs including delays will be over US\$70.

The NZD weakened against the USD when the Level 4 lockdown was announced, dropping from 0.702 to 0.683. The exchange rate then rebounded to pre-lockdown trading margins.

Domestic pruned log prices have lifted \$4 this quarter due to strong AWG export pricing and factoring in the winter effects on Jas conversions.

Grade Recovery

Grade out turn for August is as follows:

Chart 1: Grade Recovery for Month

Pruned recovery for August comprised 19% of overall sales volume, 14% of which was sold as domestic pruned grades.

High quality export sawlog (AO, A and K grades) made up 71% of the total production volume, with lower quality export (KI and KIS grades) comprising 10% of volume.

Expenditure

Harvesting

The total logging cost for the month was **\$46,771.10**, an average of **\$43.00** per tonne.

Harvest expenditure for the month is summarised below in Table 1:

LOGGING COSTS		TOTAL
August		\$46,771.10
		\$46,771.10

Table 1: Logging Costs

ADDITIONAL HARVEST COSTS		TOTAL
August	Establishment	\$10,812.25
		\$10,812.25

Table 2: Additional Logging Costs

Establishment costs are for the transporting of the drum roller machine and establishment of harvest machinery for the new logging crew.

Pic 1: Progress Map

Covid Level 4 lockdown commenced on 18th August and halted production for two weeks. We were able to cart out for two days at the end of August as the ports had run out of logs and had ships to load. MBIE gave a dispensation for this. This worked well for us as enabled us to clear log stocks from the forest before work recommenced.

Harvesting recommenced in Covid Level 3 on 31st August.

During August a new hauler logging crew, Log 3 commenced harvesting in Glenlea Forest; they spent the month clearfell harvesting in Setting 65 on The Gap Road. The crew did a good job around the native area using winch assisted felling.

Traffic management on Putere Road for felling within two tree lengths of the road and an Electrical Hazard Management Plan were put in place for felling around the powerlines and an observer from Eastland Power was present.

Cartage

Cartage is managed by Harvest Logistics Ltd, who organise the despatch and supply of log trucks into the forest.

The total cartage expense for the month was **\$33,353.36** which is an average unit rate of **\$30.66** per tonne.

Cartage expenditure for the month is summarised below in Table 3:

CARTAGE COSTS		TOTAL
August	Cartage - Truck	\$33,353.36
	Weighbridge	\$344.48
		\$33,697.84

Table 3: Cartage Costs

The average cart rate for August inclusive of weighbridge fees is **\$30.98** per tonne.

Engineering

ENGINEERING		RL	CF	TOTAL
August	Metal Rock	\$3,893.32		\$3,893.32
	Pavement	\$60.00	\$192.00	\$252.00
	Stockpile Works	\$682.65		\$682.65
	Trucks - Cart & Dump	\$4,320.00		\$4,320.00
	Establishment - Engineering	\$160.00	\$320.00	\$480.00
	R&M	\$24.00		\$24.00
	Spread from stockpile	\$275.00		\$275.00
	Loadout Bay Construction	\$970.00		\$970.00
		\$10,384.97	\$512.00	\$10,896.97

Table 4: Engineering Costs

Earthworks in August was largely related to work on Landing 65 loadout and preparation of The Gap Road for harvest from Landing 65. Work was started on preparation of Fenrich Road for the construction of Landing 69.

Planned Activities for September 2021

The harvest crew will move to neighbouring Woodlands Forest for a few weeks to extract a setting of windblown trees before returning to Glenlea Forest to Setting 69.

Earthworks plans for September are to complete Fenrich and McDell Roads.

Net Revenue

Net revenue for the project to date excluding GST is shown in Table 5 below:

MONTH	NET MONTH	NET PROJECT
August	\$32,837.46	\$1,888,040.95

Table 5: Total Revenue

The net revenue for the month equates to an average of **\$30.19** per tonne, or **\$17,282.87** per hectare.

Fees and Levies

Management fees and FGC levies are summarised in Table 6 below:

FEES & LEVIES		TOTAL
August	Management	\$5,821.35
	FGC levy	\$360.59
		\$6,181.94

Table 6: Fees and Levies

Miscellaneous

See Table 7 below:

MISCELLANEOUS		TOTAL
August	Consumables	\$98.16
	Other	\$688.21
	Power Lines	\$2,567.80
	Traffic Management	\$982.00
		\$4,336.17

Table 7: Miscellaneous Expenses

Consumable costs are for docket books used for the loadout of logs during August, a stencil, and antisapstain used to treat the ends of pruned export logs.

Other costs are for the proportional costs of operating the forest digital radio network, the proportional annual costs for the land lease location of the Putere repeater and for a donation of children's snack packs for the Putere School Cross Country event. Also included in other costs was the fee for a representative from Eastland Network required to observe mechanised tree felling within 50 metres of the powerlines.

Traffic Management costs are for school bus signage for Putere Road, and for traffic control while felling trees close to the public road reserve.

Health and Safety

There were no health and safety incidents reported in the forest during August.

Environmental

There was no site-specific environmental planning or monitoring undertaken during August.

Financial Performance

The graph below shows the actual project results compared with the forecast budget.

The orange cumulative line measures actual performance against the forecast budget.

Chart 2: Actual vs Predicted

Net return per tonne to date is **\$29.54**, forecast was \$46.07.

Gross return per tonne to date is **\$130.32**, forecast was \$135.42.

Net return per hectare to date is **\$21,577.61**, forecast was \$34,595.00.

Kind Regards

FMNZ Harvest Team
