

HARVESTING REPORT

November 2021

STONEY RIVER FOREST

Setting 113 – stems felled and ready for extraction.

FMNZ

"Maximising the value of forests since 1974"

Clearfell Harvesting Report – Stoney River – November 2021

Summary

- Gross revenue for the month is **\$632,285.72**
- Costs for the month are **\$407,453.42**
- Net income for the month is **\$224,832.30**
- Tonnes harvested for the month is **4,800.64**
- Net income per tonne for the month is **\$46.83**
- Area cleared for the month is **8.2** hectares

The project performance to date is set out below:

- Project gross revenue to date is **\$11,492,759.23**
- Project costs to date are **\$7,665,618.59**
- Project net income to date is **\$3,827,140.63**
- Tonnes harvested to date is **78,421.57**
- Net income per tonne to date is **\$48.80**
- Recoverable volume per hectare to date is **781.1** tonnes
- Net income per hectare to date is **\$38,118.93**
- Total forest area is **223.2** hectares, approximate hectares cleared to date is **100.4** hectares.

The total forest area reflects all net stocked areas regardless of age class or previous roadline volumes.

NB: Measured harvest areas are estimated monthly and reconciled with satellite imagery prior to valuations, they are subject to change and should be used as a guide only.

Revenue

Log Sales

Gross income for the month was **\$632,285.72** with an average sale price over all grades of **\$131.71** per tonne.

November 2021 - Log Markets, Hawkes Bay

The November export prices have dropped \$13.86/Jas m³ on average. The decrease has affected the pruned grades slightly more.

Radiata log inventories on the main Chinese ports we monitor have decreased to 4.60Mm³, with daily offtake relatively solid at 73Km³ per day as we head into the Northern Hemisphere's winter. Inventory remains 40% above 2018-2020 levels and this is creating downward pressure on CFR sales price.

As mentioned last month, there has been a structural reset in the Chinese economy with the government looking to slow the property market and reduce debt levels. As is often the case, many believe the market has overcorrected. Several factors have contributed to weaker log demand / usage however, the major reasons are adjustments to the construction market due to high debt ratios of property development companies and the energy crisis limiting factory output. China's zero-tolerance policy towards Covid-19 continues to have impacts as workers in new outbreak regions get sent home to control the spread of the virus.

The freight market has continued to trend downward however, at this stage the Chinese appear to be taking advantage of freight cost gains by lowering the CFR price. Due to the lag time of ship chartering, we expect to see pre-booked vessels in December also affecting AWG prices.

The NZD has continued to slip back against the USD since the end of October. The change has not been enough to add some AWG value for forest owners.

Domestic pruned log prices have fallen \$15 this quarter due to weaker AWG export pricing and factoring in the spring effects on Jas conversions.

Grade Recovery

Grade out turn for November is as follows:

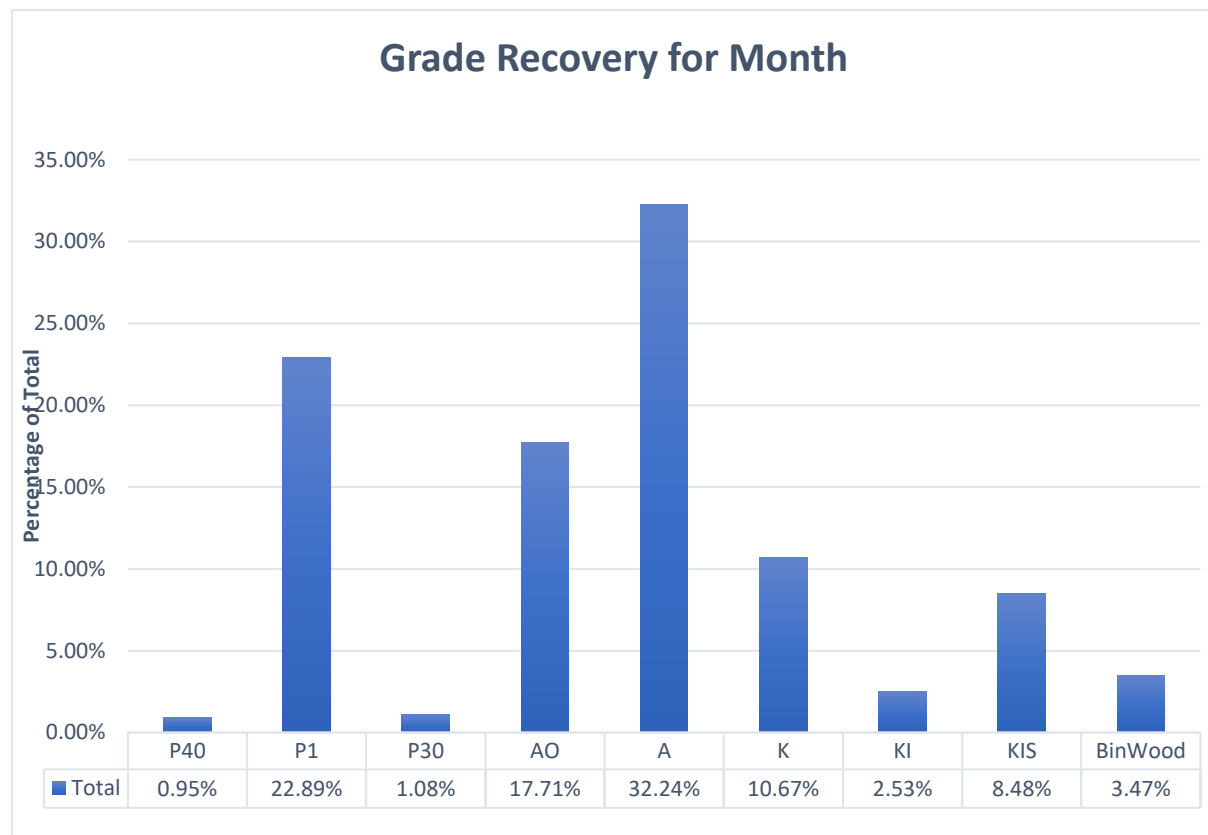

Chart 1: Grade Recovery for Month

Pruned recovery for November comprised 25% of overall sales volume, 23% of which was sold as domestic pruned grades.

High quality export sawlog (AO, A and K grades) made up 61% of the total production volume, with lower quality export (KI and KIS grades) comprising 11% of volume.

The remaining 3% of production was made up of domestic pulp and binwood.

Cartage

Cartage is managed by Harvest Logistics Ltd, who organise the despatch and supply of log trucks into the forest.

The total cartage expense for the month was **\$156,027.14** which is an average unit rate of **\$32.50** per tonne.

Cartage expenditure for the month is summarised below in Table 2:

CARTAGE COSTS		TOTAL
November	Cartage - Truck	\$156,027.14
	Weighbridge	\$1,546.98
	Trailer Lifting	\$66.00
		\$157,640.12

Table 2: Cartage Costs

The average cart rate for November inclusive of weighbridge and trailer lifting fees is **\$32.84** per tonne.

Trailer lifting costs are for use of the public gantry to reload trailers for loads delivered outside the normal hours of the facility provided by the Napier Port.

Engineering

ENGINEERING		RL	CF	TOTAL
November	Establishment - Engineering			\$218.40
	Loadout Bay Construction	\$605.00		\$605.00
	R&M - Road Maintenance			\$266.62
	Trucks - Cart & Dump		\$1,670.55	\$1,670.55
	Other	\$110.00		\$110.00
	Stockpile Works	\$144.00	\$252.00	\$396.00
		\$859.00	\$2,407.57	\$3,266.57

Table 3: Engineering Costs

All earthworks in November was associated with harvesting operations – metal was spread on the Landing 113 loadout bay and Waiau Station Road was graded to repair potholes.

Planned Activities for December 2021

Log 26 will spend the rest of the year harvesting in Setting 113, Dysart Road.

Earthworks in December will be restricted to finishing pavement to final thickness and securing sites for the extended Christmas break.

Net Revenue

Net revenue for the project to date excluding GST is shown in Table 4 below:

MONTH	NET MONTH	NET PROJECT
November	\$224,832.30	\$3,827,140.63

Table 4: Total Revenue

The net revenue for the month equates to an average of **\$46.83** per tonne, or **\$27,418.57** per hectare.

Fees and Levies

Management fees and FGC levies are summarised in Table 5 below:

FEES & LEVIES		TOTAL
November	Management	\$25,291.43
	FGC levy	\$1,638.60
		\$26,930.03

Table 5: Fees and Levies

Miscellaneous

See Table 6 below:

MISCELLANEOUS		TOTAL
November	Consumables	\$123.21
	Other	\$87.69
		\$210.90

Table 6: Miscellaneous Expenses

Consumable costs are for docket books used for the loadout of logs during November and for antisapstain used to treat the ends of pruned export logs.

Other costs are for the proportional costs of operating the forest digital radio network.

Health and Safety

There were two property damage incidents reported in Stoney River Forest during November.

The first incident occurred when a crosscutter was cutting through blackberry. His left foot got tangled in the blackberry causing him to trip and stumble, resulting in the chain of the chainsaw catching his chaps. He was unharmed due to wearing the correct PPE (Chaps). This was a reminder to take extra care when working in blackberry, particularly when operating a chainsaw.

The second incident happened when a loader operator was helping to put a track back on the bulldozer. During the process, the chain slipped and caused damage to the winch pump, ripping it off the housing. It would have better to take the time to assess the task and outcome prior to attempting the task and the outcome would likely to have been different.

Environmental

ENVIRONMENTAL		TOTAL
November	Environmental Monitoring	\$280.00
		\$280.00

Table 7: Environmental Expenses

A pre-harvest native vegetation assessment was undertaken within Setting 123 on Stoney Road as part of developing a site-specific harvest plan (SSHP) to determine which areas, if any, of native vegetation must be protected from damage during harvesting operations.

Financial Performance

The graph below shows the actual project results compared with the forecast budget.

The orange cumulative line measures actual performance against the forecast budget.

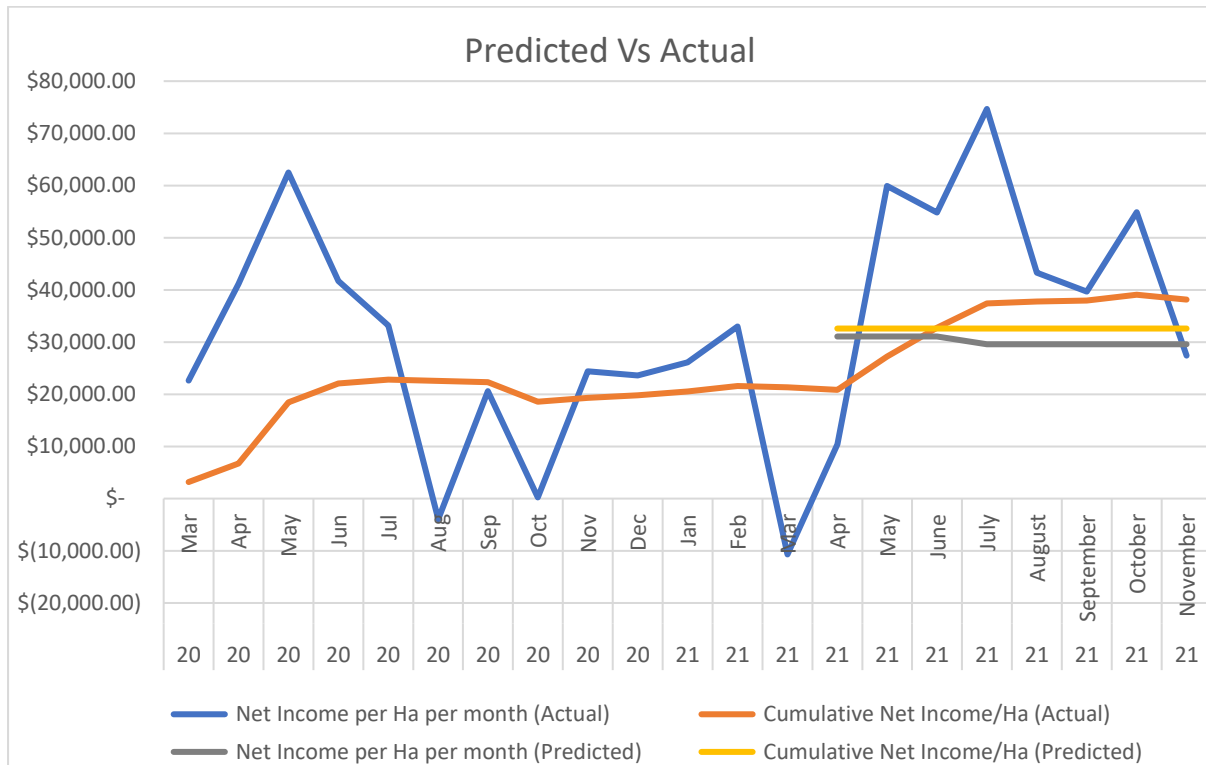

Chart 2: Actual vs Predicted

Net return per tonne to date is **\$48.80**, forecast was \$43.70.

Gross return per tonne to date is **\$146.55**, forecast was \$135.77.

Net return per hectare to date is **\$38,118.93**, forecast was \$32,592.02.

Kind Regards

FMNZ Harvest Team
