

HARVESTING REPORT

December 2021

QUAIL RIDGE FOREST

A Grade logs ready for loadout.

FMNZ

"Maximising the value of forests since 1974"

Clearfell Harvesting Report – Quail Ridge – December 2021

Summary

- Gross revenue for the month is **\$587,035.27**
- Costs for the month are **\$396,441.72**
- Net income for the month is **\$190,593.55**
- Tonnes harvested for the month is **4,684.28**
- Net income per tonne for the month is **\$40.69**
- Area cleared for the month is **5.7** hectares

The project performance to date is set out below:

- Project gross revenue to date is **\$15,087,078.08**
- Project costs to date are **\$10,201,679.31**
- Project net income to date is **\$4,885,398.76**
- Tonnes harvested to date is **103,051.25**
- Net income per tonne to date is **\$47.41**
- Recoverable volume per hectare to date is **762.2** tonnes
- Net income per hectare to date is **\$36,134.61**
- Total forest area is **225.4** hectares, approximate hectares cleared to date is **135.2** hectares.

The total forest area reflects all net stocked areas regardless of age class or previous roadline volumes.

NB: Measured harvest areas are estimated monthly and reconciled with satellite imagery prior to valuations, they are subject to change and should be used as a guide only.

Revenue

Log Sales

Gross income for the month was **\$587,035.27** with an average sale price over all grades of **\$125.32** per tonne.

December 2021 - Log Markets, Hawkes Bay

The December export prices have slipped \$2.64/Jas m³ on average. The decrease has affected the pruned grades slightly more.

Radiata log inventories on the main Chinese ports we monitor have decreased to 4.54Mm³, with daily offtake remaining solid at 80Km³ per day. Inventory is expected to remain elevated through December and into January then move lower as arrivals of New Zealand log cargos diminish.

Over January all major supply sources into China are expected to be down on normal, with a recent ban on Siberian non-containerised logs and lumber and a wider ban on Russian log imports come into force in January 2022. This will remove 3–4Mm³ from the log market over 2022. Also reports are that the EU beetle damaged spruce volumes will be down significantly as the rate of infestation has decreased along with strong local European demand. We are hoping we have seen the bottom of the market – the China wholesale domestic log market has flattened which is a good signal for short term price stability with the USD CFR sale price and the domestic selling price now closely aligned.

Both the oil and freight markets have made a small recovery over December. Spot rates moved briefly down into the high \$30's primarily driven by the huge reduction in harvesting and lack of cargos. Looking forward, the freight rates will be an important driver in our market in 2022. This will be hugely affected by the demand from the iron ore and coal markets dominated by China by the larger Cape and Panamax vessel classes.

The USD has strengthened against the NZD since the end of October and the recent spread of the Omicron variant has intensified fears the world is not out of the Covid woods. This has dampened the demand for riskier currencies and is good news for New Zealand exporters and forest owners.

Domestic pruned log prices have settled flat this quarter due to concerns relating to the slowdown in harvesting affecting production.

Grade Recovery

Grade out turn for December is as follows:

Chart 1: Grade Recovery for Month

Pruned recovery for December comprised 24% of overall sales volume, 21% of which was sold as domestic pruned grades.

High quality export sawlog (AO, A and K grades) made up 63% of the total production volume, with lower quality export (KI and KIS grades) comprising 9% of volume.

The remaining 4% of production was made up of domestic pulp and binwood.

Log 5 continued clearfell harvest in Setting 104, Elliot Road until the end of the year and then left the forest.

Log 58 carried out ground-based harvesting in Settings 92 and 96 on Bushmills Road and then moved to commence roadline felling around Landings 101 and 101A. This work will clear the trees around the power lines beside Putere Road.

There is little clearfelling left in Quail Ridge which is able to be completed by either ground-based or with the harvest line. The remaining area is more suited to a tower machine which is currently working in an adjoining forest.

Harvesting operations continued to operate at capped harvest production levels in December. Overall caps on production were calculated on the available workdays in December and the crews stopped work for the Christmas break on the 17th of December. Return to work is planned for 17th of January 2022.

Cartage

Cartage is managed by Harvest Logistics Ltd, who organise the despatch and supply of log trucks into the forest.

The total cartage expense for the month was **\$149,500.78** which is an average unit rate of **\$31.92** per tonne.

Cartage expenditure for the month is summarised below in Table 3:

CARTAGE COSTS		TOTAL
December	Cartage - Truck	\$149,500.78
	Weighbridge	\$1,673.98
	Trailer Lifting	\$6.00
		\$151,180.76

Table 3: Cartage Costs

The average cart rate for December inclusive of weighbridge and trailer lifting fees is **\$32.27** per tonne.

Trailer lifting costs are for use of the public gantry to reload trailers for loads delivered outside the normal hours of the facility provided by the Napier Port.

Engineering

ENGINEERING		RL	CF	TOTAL
December	Stockpile Works	\$84.00	\$72.00	\$156.00
	Trucks - Cart & Dump	\$1,317.22		\$1,317.22
	Metal Rock	\$1,658.83		\$1,658.83
	Landings	\$8,148.00		\$8,148.00
	Loadout Bay Construction	\$605.00	\$220.00	\$825.00
	Culverts - Freight	\$50.00		\$50.00
	Entranceway - Seal	\$2,618.00		\$2,618.00
	Establishment - Engineering	\$270.00		\$270.00
	R&M		\$378.00	\$378.00
	Rehab		\$2,198.00	\$2,198.00
		\$14,751.05	\$2,868.00	\$17,619.05

Table 4: Engineering Costs

Work was completed on Landing 101 in preparation for harvesting in the new year. This included construction of the loadout bay and entranceway to the landing.

Metal was spread on Trewavas Road to build up to full pavement.

Post-harvest rehabilitation was completed on Setting 94 and the associated tracking.

Planned Activities for January 2022

In January, Log 58 will continue roadline harvesting in Landing 101. The completion of Landing 101, inclusive of powerline proximity felling will be completed in January 2022 and the crew will then depart Quail Ridge Forest.

Setting 102 in the old age class at the Monarae Station entrance is being planned to extract in March.

Net Revenue

Net revenue for the project to date excluding GST is shown in Table 5 below:

MONTH	NET MONTH	NET PROJECT
December	\$190,593.55	\$4,885,398.76

Table 5: Total Revenue

The net revenue for the month equates to an average of **\$40.69** per tonne, or **\$33,437.46** per hectare.

Fees and Levies

Management fees and FGC levies are summarised in Table 6 below:

FEES & LEVIES		TOTAL
December	Management	\$23,481.41
	FGC levy	\$1,578.15
		\$25,059.56

Table 6: Fees and Levies

Miscellaneous

See Table 7 below:

MISCELLANEOUS		TOTAL
December	Other	\$252.73
	Consumables	\$83.21
	Power Lines	\$11,153.60
		\$11,489.54

Table 7: Miscellaneous Expenses

Other costs are for the proportional costs of operating the forest digital radio network and the proportional share of the contractor Christmas BBQ which is held on site at Christmas to thank the harvest crew for their efforts through the very difficult 2021 year.

Consumable costs are for docket books used for the loadout of logs during December

Power Lines costs are for the last of the repair costs for trees which were windblown across the Maungataniwha supply power lines which was repaired by Eastland Network. The total power line cost includes an observer and faller from Eastland Power Network for felling around the power lines of Landing 101.

Health and Safety

One minor injury incident was reported during December. A truck driver slipped off a log and landed very hard on his back and also hit his head. Crew members were concerned for his wellbeing but he said he was OK and proceeded to leave the site.

Environmental

There was no site-specific environmental planning or monitoring undertaken during December.

Financial Performance

The graph below shows the actual project results compared with the forecast budget.

The orange cumulative line measures actual performance against the forecast budget.

Chart 2: Actual vs Predicted

Net return per tonne to date is **\$47.41**, forecast was \$45.50.

Gross return per tonne to date is **\$146.40**, forecast was \$134.92.

Net return per hectare to date is **\$36,134.61**, forecast was \$35,617.00.

Kind Regards

FMNZ Harvest Team
