

HARVESTING REPORT

March 2022

GLENLEA FOREST

Shovelling the right hand side of Setting 69.

FMNZ

"Maximising the value of forests since 1974"

Clearfell Harvesting Report – Glenlea – March 2022

Summary

- Gross revenue for the month is **\$83,006.94**
- Costs for the month are **\$53,978.47**
- Net income for the month is **\$29,028.47**
- Tonnes harvested for the month is **574.61**
- Net income per tonne for the month is **\$50.52**
- Area cleared for the month is **0.3** hectares

The project performance to date is set out below:

- Project gross revenue to date is **\$10,908,687.52**
- Project costs to date are **\$8,165,689.16**
- Project net income to date is **\$2,742,998.36**
- Tonnes harvested to date is **83,080.51**
- Net income per tonne to date is **\$33.02**
- Recoverable volume per hectare to date is **712.50** tonnes
- Net income per hectare to date is **\$23,524.86**
- Total forest area is **293.80** hectares, approximate hectares cleared to date is **116.60** hectares.

The total forest area reflects all net stocked areas regardless of age class or previous roadline volumes.

NB: Measured harvest areas are estimated monthly and reconciled with satellite imagery prior to valuations, they are subject to change and should be used as a guide only.

Revenue

Log Sales

Gross income for the month was **\$83,006.94** with an average sale price over all grades of **\$144.46** per tonne.

March 2022 - Log Markets, Hawkes Bay

The March export prices have increased again \$9.64/Jas m³ on average, with the increases favouring unpruned grades.

Radiata log inventories on the main Chinese ports we monitor have increased to 4.25Mm³, with daily offtake increasing more slowly than expected to 65Km³ per day. Global markets during March have been driven by the Ukraine war with all major commodities and freight trading higher.

Log supply has been constrained with less supply from both New Zealand and Europe through the first quarter. This was due to many crews taking extended breaks over the holiday period and the slower than usual resumption of full production. March is traditionally a big month for log production in New Zealand due to good weather, good log prices and a higher number of workdays. Due to interruptions in the whole supply chain caused by Covid absences and unseasonal weather events, log production has also been lower than expected.

China is facing a reduction in European log supply due to Russia invading Ukraine along with Uruguayan exporters dealing with increased ocean freight costs. While we will likely see an increase in Russian lumber supply (and possibly even logs despite an earlier ban of export logs) this would take time to ramp up, while the reduction from the rest of Europe is more immediate. European supply was already reducing before the war due to falling salvage harvest levels and increased internal processing and consumption.

The recent Russian invasion of Ukraine has seen the rapid increase in crude oil prices. This is feeding into ocean freight rates lifting US\$25 since January. Demand for freight is up sharply post LNY as more vessels look to relocate to the Pacific and away from the Atlantic due to concerns regarding the war escalating.

The NZD has continued to trade higher against the USD since the beginning of March with a 2 cent gain over the month counteracting any CFR gains.

Mid-quarter, domestic pruned log prices have settled flat, due to concerns relating to the slowdown in harvesting affecting production / supply.

Grade Recovery

Grade out turn for March is as follows:

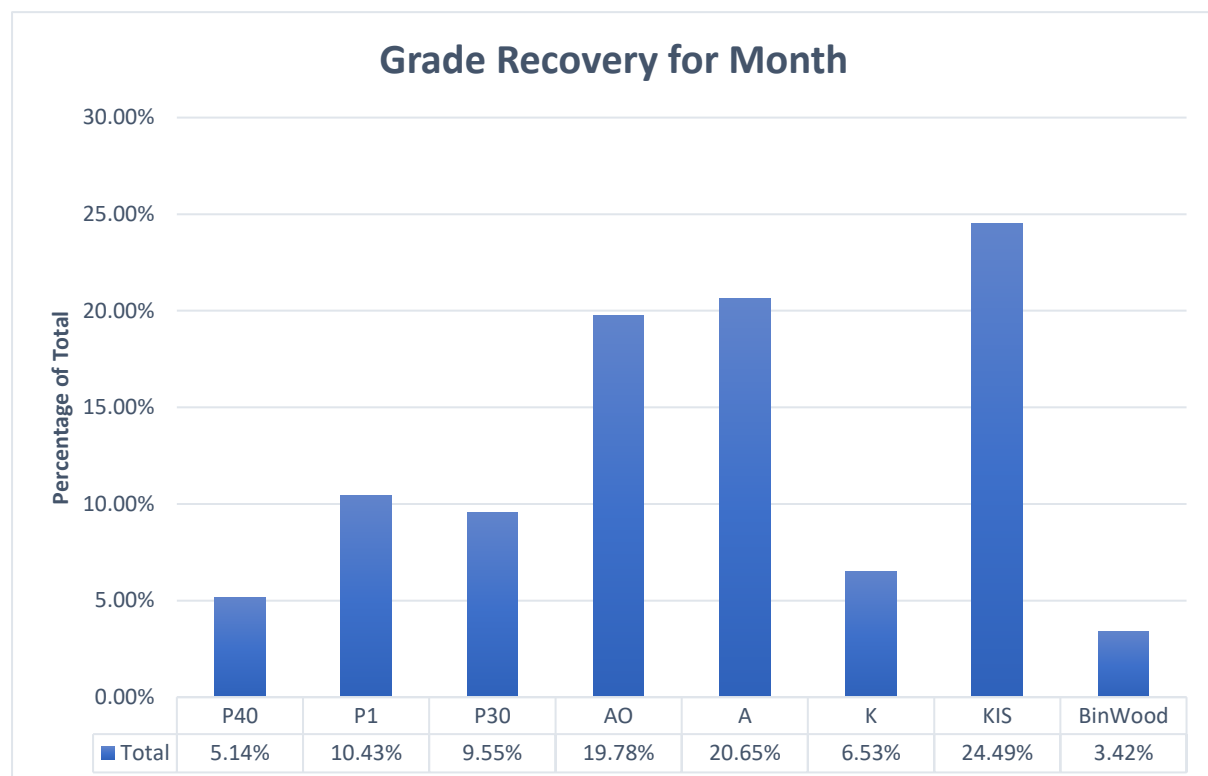

Chart 1: Grade Recovery for Month

Pruned recovery for March comprised 25% of overall sales volume, 10% of which was sold as domestic pruned grades.

High quality export sawlog (AO, A and K grades) made up 47% of the total production volume, with lower quality export (K and KIS grades) comprising 25% of volume.

The remaining 3% of production was made up of domestic pulp and binwood.

Expenditure

Harvesting

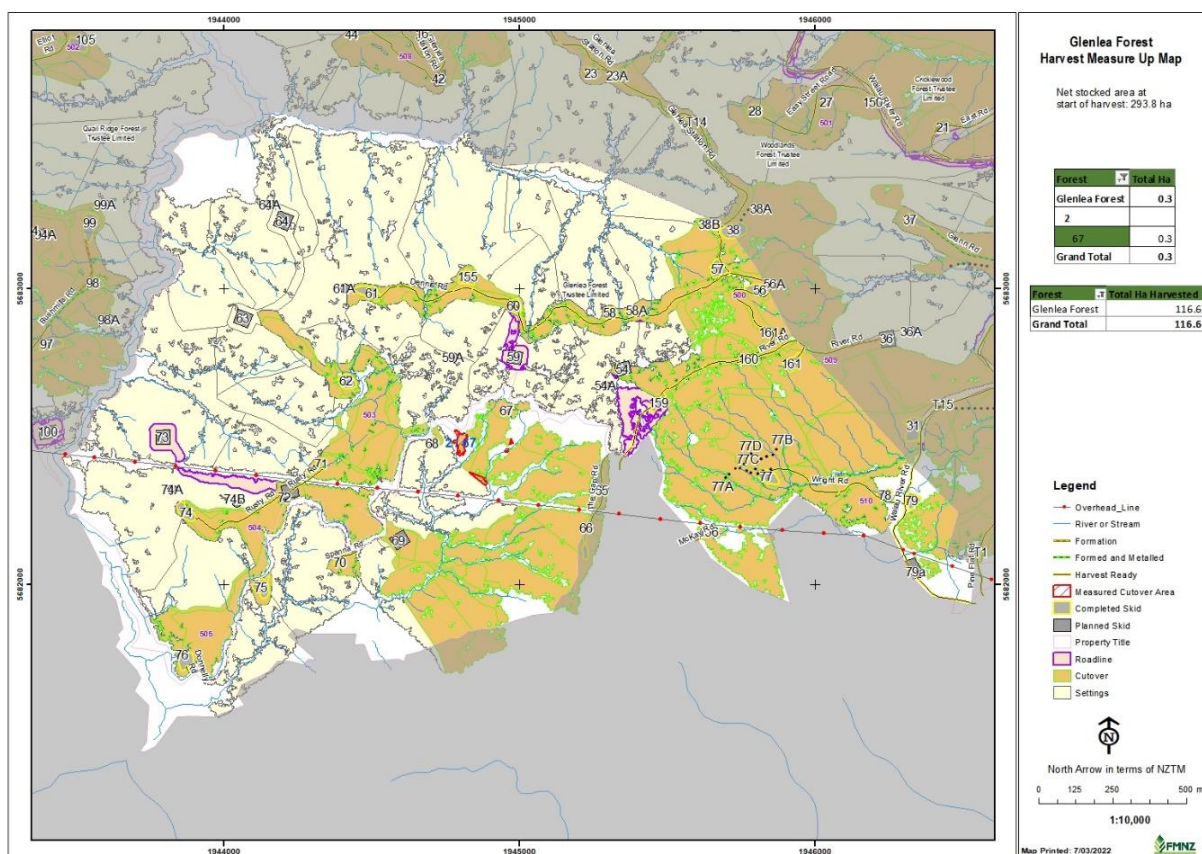

The total logging cost for the month was **\$26,475.58**, an average of **\$46.08** per tonne.

Harvest expenditure for the month is summarised below in Table 1:

LOGGING COSTS		TOTAL
March	Logging – tonnes	\$26,475.58
		\$26,475.58

Table 1: Logging Costs

Due to the significant rise in diesel and petrol prices, a fuel adjustment factor has been added to the logging rates and will remain until there is a fuel cost reduction.

Pic 1: Progress Map

Log 3 cleared out the top of Setting 67, stopping when they got within two tree lengths of the powerlines. The rest of the wood in this setting will be pulled back to Landing 68 under the Electrical Hazard Management Plan.

Continued delays in finding replacement parts for the logging contractors' Tower have resulted in the remaining stems from Setting 69 becoming aged, there is nothing that can be done to harvest these stems until the tower is repaired.

During March there was an extended period of very wet weather accompanied by constant easterly winds which has caused difficulties with clearfell operations. The main damage from the event was localised around Wairoa North and the public road, Putere Road, was closed to heavy vehicles while the clean-up was undertaken.

Cartage

Cartage is managed by Harvest Logistics Ltd, who organise the despatch and supply of log trucks into the forest.

The total cartage expense for the month was **\$19,683.26** which is an average unit rate of **\$34.25** per tonne.

Cartage expenditure for the month is summarised below in Table 2:

CARTAGE COSTS		TOTAL
March	Cartage - Truck	\$19,683.26
	Weighbridge	\$222.76
		\$19,906.02

Table 2: Cartage Costs

The average cart rate for March inclusive of weighbridge fees is **\$34.64** per tonne.

Engineering

ENGINEERING		RL	CF	TOTAL
March	Establishment - Engineering	\$548.96		\$548.96
	Landings	\$1,568.16		\$1,568.16
	R&M		\$116.60	\$116.60
		\$2,117.12	\$116.60	\$2,233.72

Table 3: Engineering Costs

Earthworks carried out in March saw the completion of the construction of Landing 68 to facilitate clearfell harvest operations.

Net Revenue

Net revenue for the project to date excluding GST is shown in Table 4 below:

MONTH	NET MONTH	NET PROJECT
March	\$29,028.47	\$2,742,998.36

Table 4: Total Revenue

The net revenue for the month equates to an average of **\$50.52** per tonne, or **\$96,761.57** per hectare.

Fees and Levies

Management fees and FGC levies are summarised in Table 5 below:

FEES & LEVIES		TOTAL
March	Management	\$3,320.28
	FGC levy	\$189.60
		\$3,509.88

Table 5: Fees and Levies

Miscellaneous

See Table 6 below:

MISCELLANEOUS		TOTAL
March	Consumables	\$52.27
	Other	\$76.00
	Traffic Management	\$1,650.00
		\$1,778.27

Table 6: Miscellaneous Expenses

Consumable costs are for docket books used for the loadout of logs during March and for antisapstain used to treat the ends of pruned export logs.

Other costs are for the proportional costs of operating the forest digital radio network.

Traffic management costs are for stop go traffic control while falling within two tree lengths of Putere Road reserve, the public road.

Health and Safety

There were no health and safety incidents reported in the forest during March.

Environmental

ENVIRONMENTAL		TOTAL
March	Environmental Monitoring	\$75.00
		\$75.00

Table 7: Environmental Expenses

Environmental costs incurred this month relate to annual administration by Hawke's Bay Regional Council for compliance monitoring for consented and permitted activities.

Financial Performance

The graph below shows the actual project results compared with the forecast budget.

The orange cumulative line measures actual performance against the forecast budget.

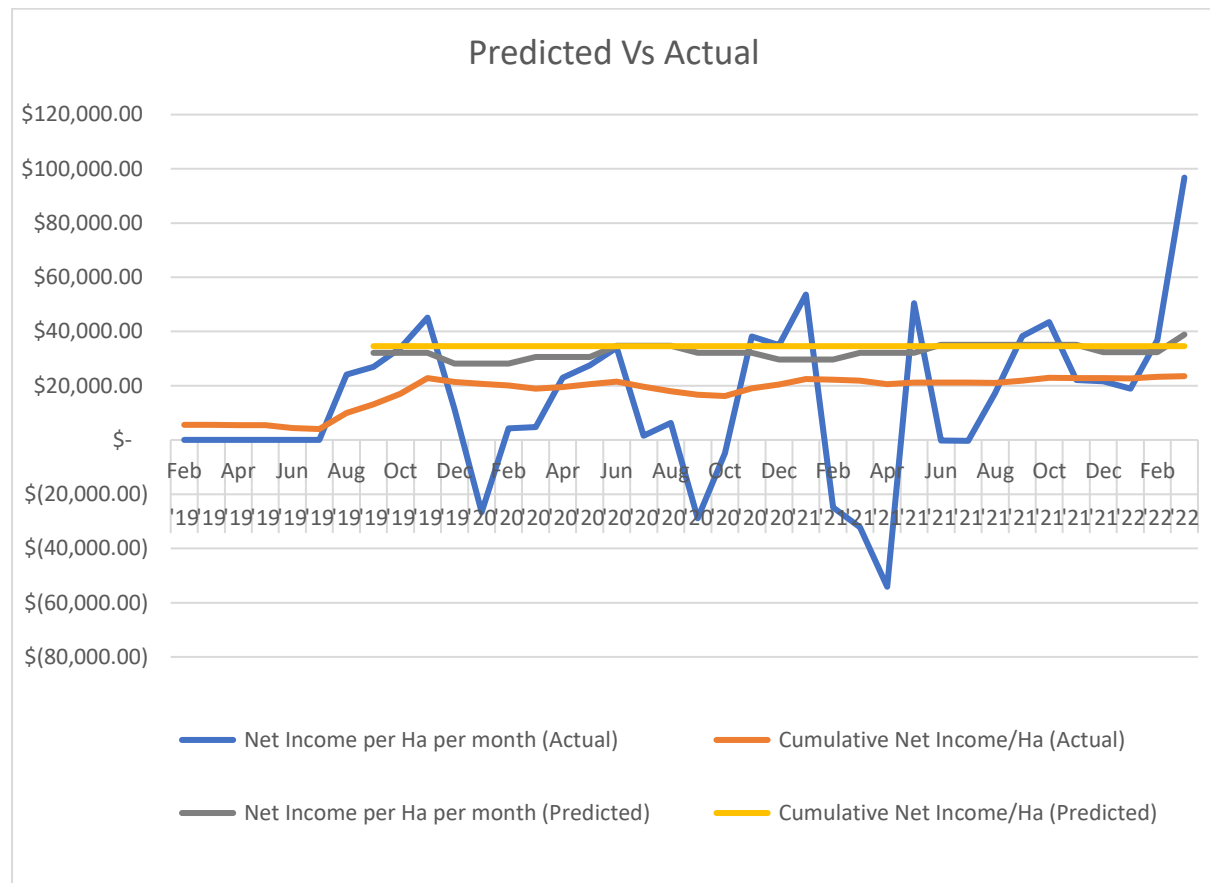

Chart 2: Actual vs Predicted

Net return per tonne to date is **\$33.02**, forecast was \$46.07.

Gross return per tonne to date is **\$131.30**, forecast was \$135.42.

Net return per hectare to date is **\$23,524.86**, forecast was \$34,595.00.

Kind Regards

FMNZ Harvest Team
