Clearfell Harvesting Report – Glenlea – April 2022

Summary

- Gross revenue for the month is **\$179,031.95**
- Costs for the month are **\$141,408.87**
- Net income for the month is **\$37,623.08**
- Tonnes harvested for the month is **1,241.87**
- Net income per tonne for the month is **\$30.30**
- Area cleared for the month is **1.2** hectares

The project performance to date is set out below:

- Project gross revenue to date is **\$11,087,719.48**
- Project costs to date are **\$8,307,098.03**
- Project net income to date is **\$2,780,621.45**
- Tonnes harvested to date is **84,322.38**
- Net income per tonne to date is **\$32.98**
- Recoverable volume per hectare to date is **715.80** tonnes
- Net income per hectare to date is **\$23,604.60**
- Total forest area is **293.80** hectares, approximate hectares cleared to date is **117.80** hectares.

The total forest area reflects all net stocked areas regardless of age class or previous roadline volumes.

NB: Measured harvest areas are estimated monthly and reconciled with satellite imagery prior to valuations, they are subject to change and should be used as a guide only.

Revenue

Log Sales

Gross income for the month was **\$179,031.95** with an average sale price over all grades of **\$144.16** per tonne.

April 2022 - Log Markets, Hawkes Bay

The April export prices have decreased \$13.00/Jas m³ on average, with the decrease affecting sawlog and lower grades the most.

Radiata log inventories on the main Chinese ports we monitor have increased to 4.29Mm³, with daily offtake at 49Km³ per day which has been impacted by the Qingmin holidays. Port inventories are effectively static in a now relatively well-balanced low demand and low supply market.

The Chinese elimination strategy and Covid control measures has seen the log market drop to 50% of typical April demand. Lockdowns of some sort have been reported in 93 out of the top 100 cities. In Shanghai, the lockdown measures have been draconian to the point of promoting some civil unrest which takes a very brave protestor. The slowdown in China demand is affecting a wide range of markets, not only terms of demand but also in further clogging already overloaded supply chains.

Low demand is well matched by lower levels of log supply. In the short term, New Zealand supply continues to be constrained by a lack of capacity in stevedoring, fumigation and debarking. Constraints are expected to gradually ease over the next quarter, but New Zealand supply will not increase quickly. Neither is supply expected to increase significantly from the other major softwood producers, assuming China demand stages some sort of recovery over 2022.

The freight market has been under downward pressure over the past month as China demand reduces for a wide range of commodities. The oil market is being driven by the Ukraine conflict. It is highly volatile and reacts quickly to any news of peace talks or heightened conflicts. Oil is trading at around US\$105/barrel which is slowing the rate of decline in freight rates.

The NZD has weakened since the beginning of April despite the RBNZ raising the OCR by 50bp. While a lower NZD might be good for New Zealand exporters it will increase prices of everything we import (fuel).

Quarter 2 negotiations for domestic pruned log prices have settled flat, due to concerns relating to the slowdown in harvesting affecting production/supply.

Grade Recovery

Grade out turn for April is as follows:

Chart 1: Grade Recovery for Month

Pruned recovery for April comprised 23% of overall sales volume, 5% of which was sold as domestic pruned grades.

High quality export sawlog (AO, A and K grades) made up 62% of the total production volume, with lower quality export (KI and KIS grades) comprising 12% of volume.

The remaining 3% of production was made up of domestic pulp and binwood.

Expenditure

Harvesting

The total logging cost for the month was **\$57,343.24**, an average of **\$46.17** per tonne.

Harvest expenditure for the month is summarised below in Table 1:

LOGGING COSTS		TOTAL
April	Logging – tonnes	\$57,343.24
		\$57,343.24

Table 1: Logging Costs

Due to the significant rise in diesel and petrol prices, a fuel adjustment factor has been added to the logging rates and will remain until there is a fuel cost reduction.

Pic 1: Progress Map

The harvest crew felled the roadside trees in Setting 69 once the carriage on the hauler was repaired. An observer from Eastland Tree Care was present for some felling near the power lines. The crew continue to harvest Setting 69 round to Spanna Road.

Cartage

Cartage is managed by Harvest Logistics Ltd, who organise the despatch and supply of log trucks into the forest.

The total cartage expense for the month was **\$43,172.49** which is an average unit rate of **\$34.76** per tonne.

Cartage expenditure for the month is summarised below in Table 2:

CARTAGE COSTS		TOTAL
April	Cartage - Truck	\$43,172.49
	Weighbridge	\$515.34
		\$43,687.83

Table 2: Cartage Costs

The average cart rate for April inclusive of weighbridge fees is **\$35.18** per tonne.

Table 3: Engineering Costs

Earthworks carried out in April was largely around Landing 68. Some road maintenance work was completed following a significant rainfall event in March which included tidying up of slips and culverts on Dennis Road.

Net Revenue

Net revenue for the project to date excluding GST is shown in Table 3 below:

MONTH	NET MONTH	NET PROJECT
April	\$37,623.08	\$2,780,621.45

Table 3: Total Revenue

The net revenue for the month equates to an average of **\$30.30** per tonne, or **\$31,352.57** per hectare.

Fees and Levies

Management fees and FGC levies are summarised in Table 4 below:

FEES & LEVIES		TOTAL
April	Management	\$7,161.28
	FGC levy	\$432.14
		\$7,593.42

Table 4: Fees and Levies

Miscellaneous

See Table 5 below:

MISCELLANEOUS		TOTAL
April	Consultancy Fees	-\$1,001.75
	Other	\$76.00
	Consumables	\$24.57
		-\$901.18

Table 5: Miscellaneous Expenses

Consultancy Fees are for a refund from the deposit for the resource consent application for the culvert crossing as it didn't take as long to process as originally thought.

Other costs are for the proportional costs of operating the forest digital radio network.

Consumable costs are for docket books used for the loadout of logs during April.

Health and Safety

A property damage incident was reported in the forest when the skyline snapped on breakouts on the back face (green zone) on the second drag of the day. The breaker-outs were in the safe retreated distance. The hauler operator wound in the skyline and inspected the rope to find damage, cut out the affected bits and re-spooled.

A potential incident was reported regarding potholes on Putere Road between road markers 3 and 18 becoming an accident waiting to happen. Significant maintenance is required to the road due to potholes, washouts and a slip.

Putere Road is a public road and FMNZ continues to work with Wairoa District Council to keep the access adequately maintained.

Environmental

There was no site-specific environmental planning or monitoring undertaken during April.

Financial Performance

The graph below shows the actual project results compared with the forecast budget.

The orange cumulative line measures actual performance against the forecast budget.

Chart 2: Actual vs Predicted

Net return per tonne to date is **\$32.98**, forecast was \$46.07.

Gross return per tonne to date is **\$131.49**, forecast was \$135.42.

Net return per hectare to date is **\$23,604.60**, forecast was \$34,595.00.

Kind Regards
